Valuable Hints to Business Men.

Ererybody knows that the surest and alckest way to accumulate a fortuse is to dereits, but everybody does not know we to do it. The inside track has sood idea on the subject, while may be practical value to some of our readers. An advertement is always valuable in reportion to the space it occupies.

Do not tear to have a small advertise ment by the side of a competing one. The big one cannot eat it up.

The big one cannot eat it up.
A short advertisement, four times, is
better than a long one only once. 'Brag
is a good dog, but hold fast is better.'
Do not advertise unless you have something worth advertising.
The eastest way in the world to throw
away money is to advertise lojadiciously.
